REFERENCE LETTER FOR FUZZY ELECTRONICS

Dear Sir/Madam,

This letter serves to confirm that Fuzzy Electronics (Private) Limited is the installer of our surveillance system (CCTV), access control, alarm and video intercom system. These systems were installed at our INTERPOL REGIONAL BUREAU Harare Offices. We have worked well with them since 2012 when they won the contract after going through a rigorous selection process.

We rate the company's workmanship and attention to detail highly. The company has a hard working team of technicians and engineers who are dedicated to their work and conduct themselves in a professional manner whilst at client premises.

We highly recommend this company to any organisation that values quality and professional service.

For more information regarding the above company's services to our organisation, please do not hesitate to contact the undersigned.

Sincerely yours,

Obediah Mpofu
Regional Product Deployment Officer / Alternate Security Liaison Officer
INTERPOL Regional Bureau for Southern Africa - HARARE
